How to Grow a Plant

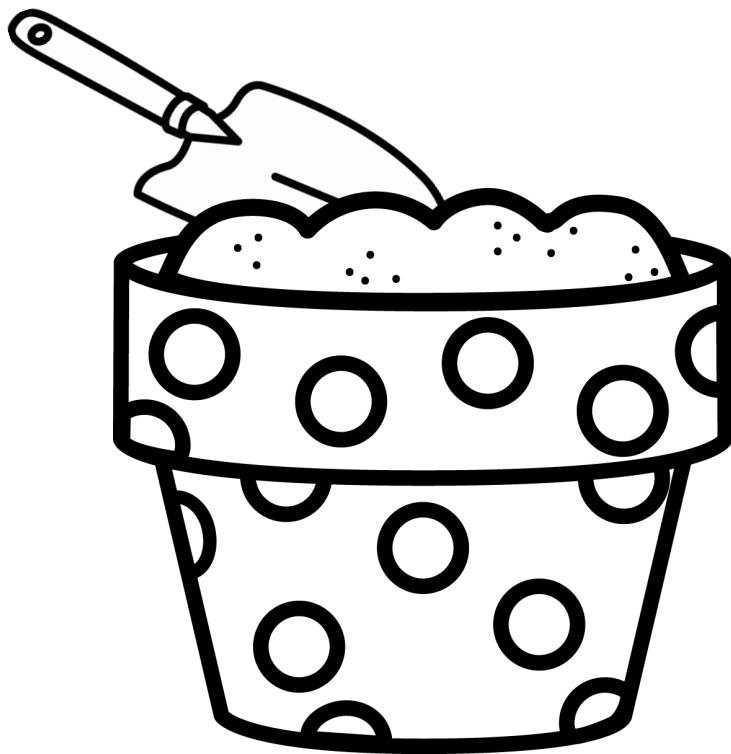

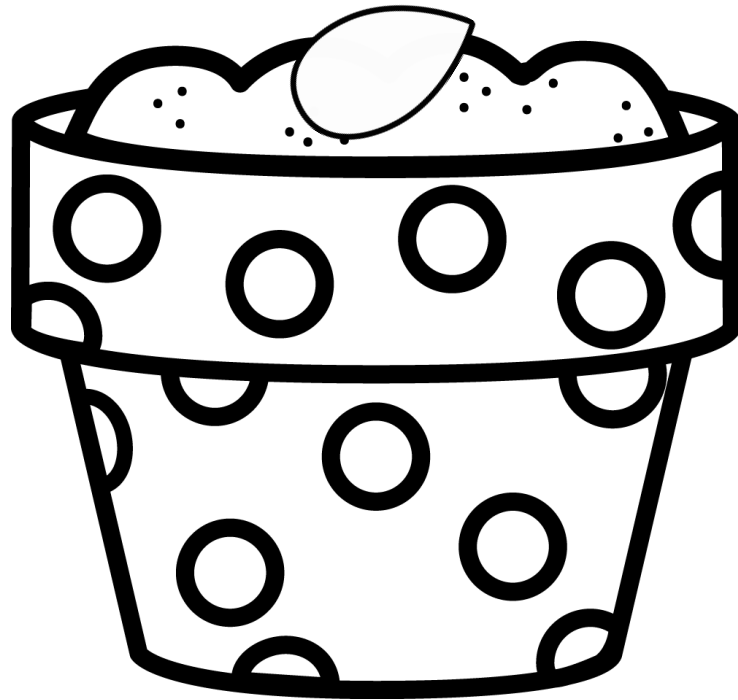

Start with an empty pot.

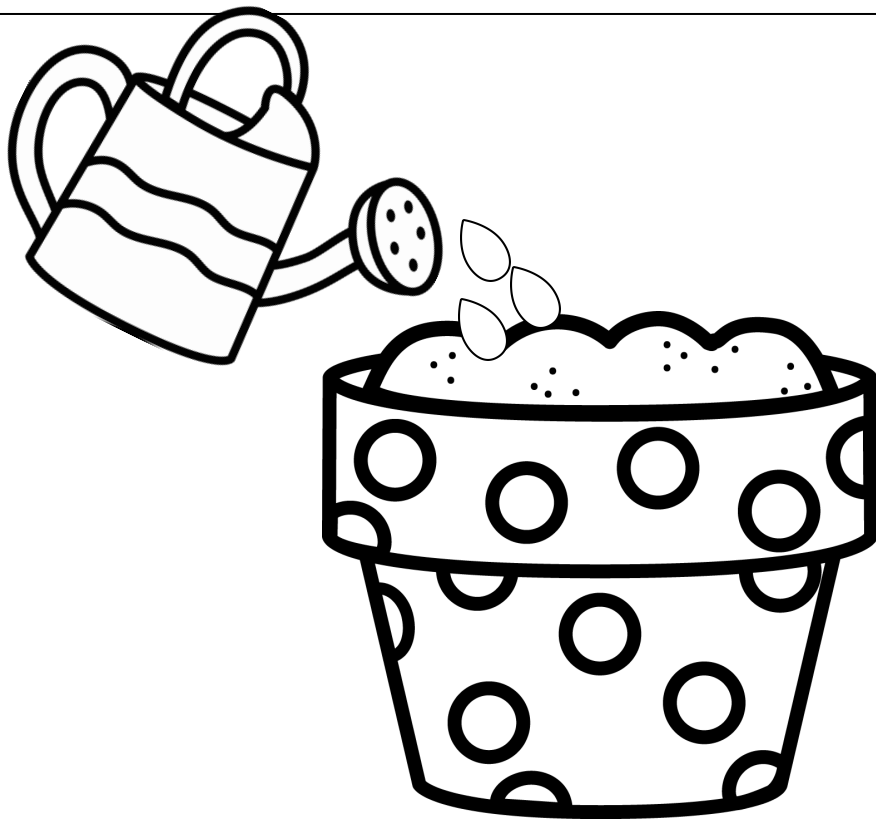

Add soil into your pot.

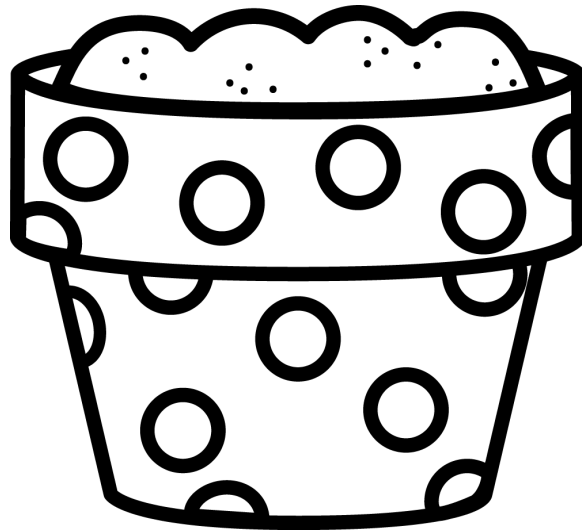

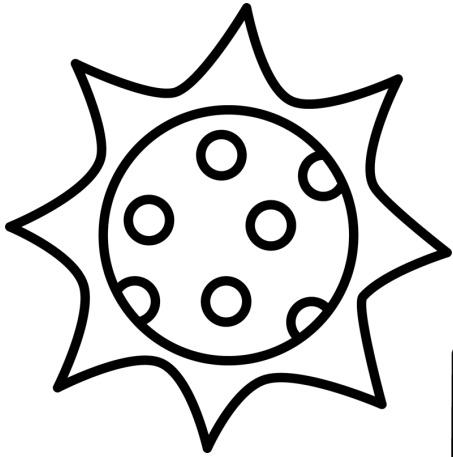

Then, dig a small hole with
a shovel.

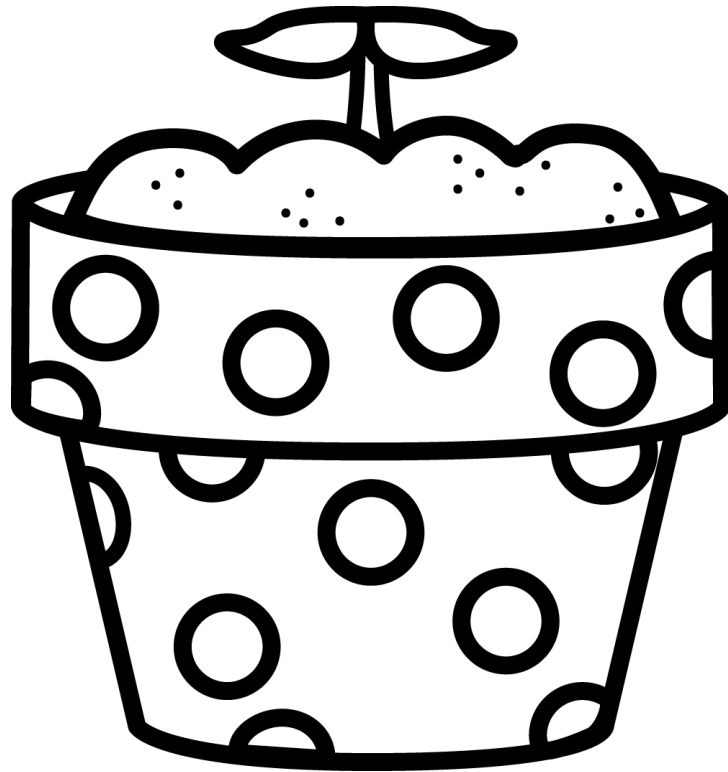

Drop a seed into your hole
and cover it up with soil.

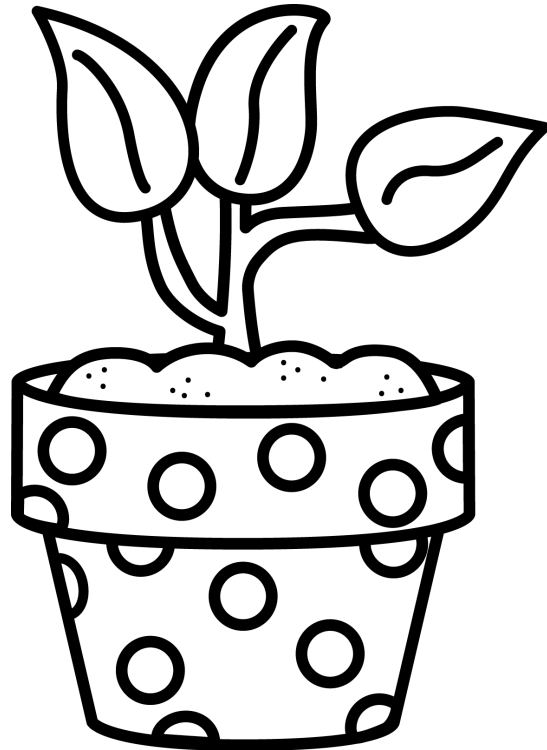

Use a watering can to add some water to your plant.

Place your pot where it will get sun and water a little each day.

Soon, you'll see a sprout!

Then, it will become a larger
plant by taking care of
it each day.
