

Build a Bug Cut & Paste Crafts

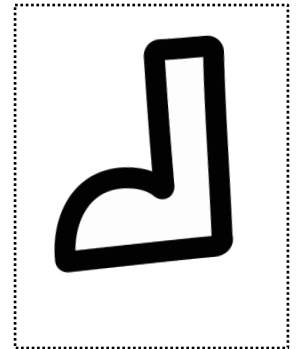

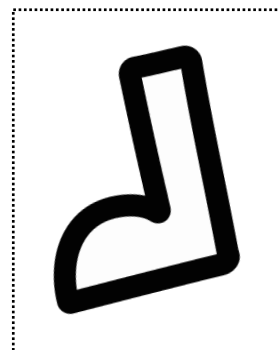

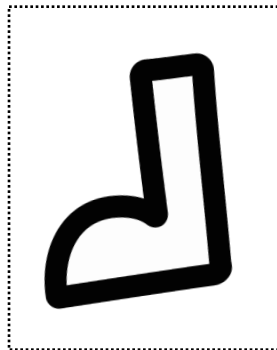

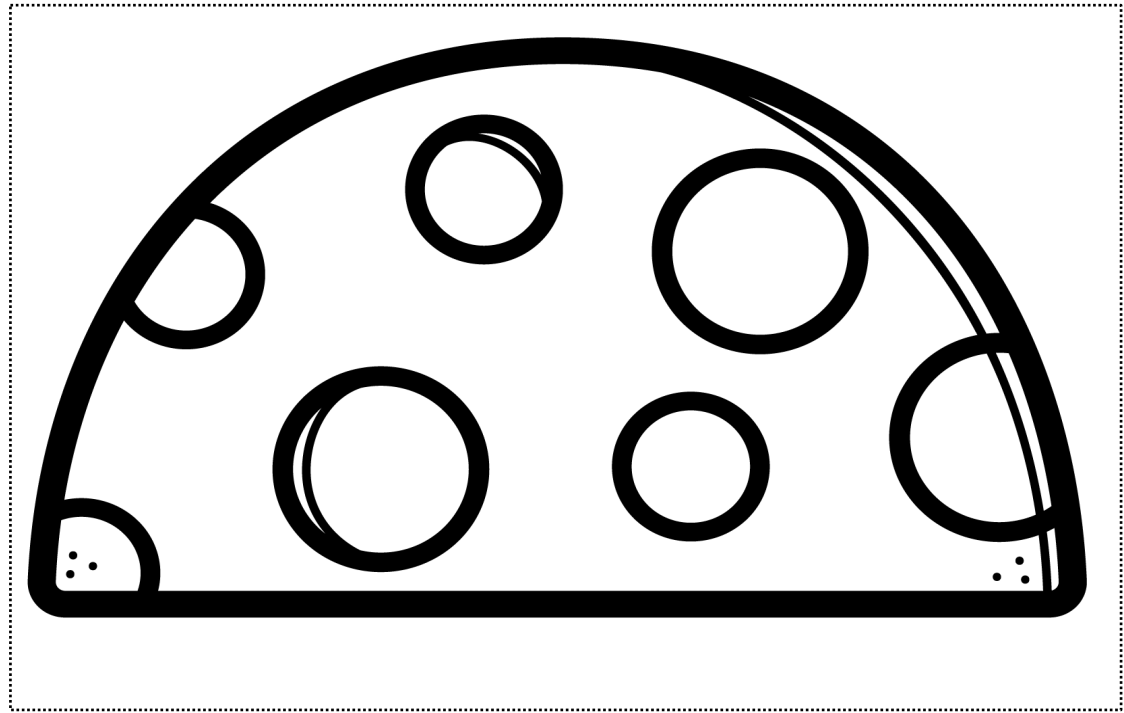

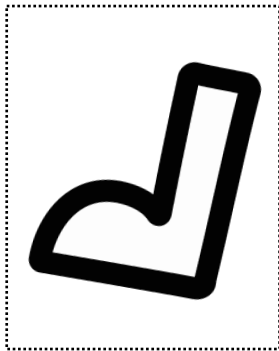

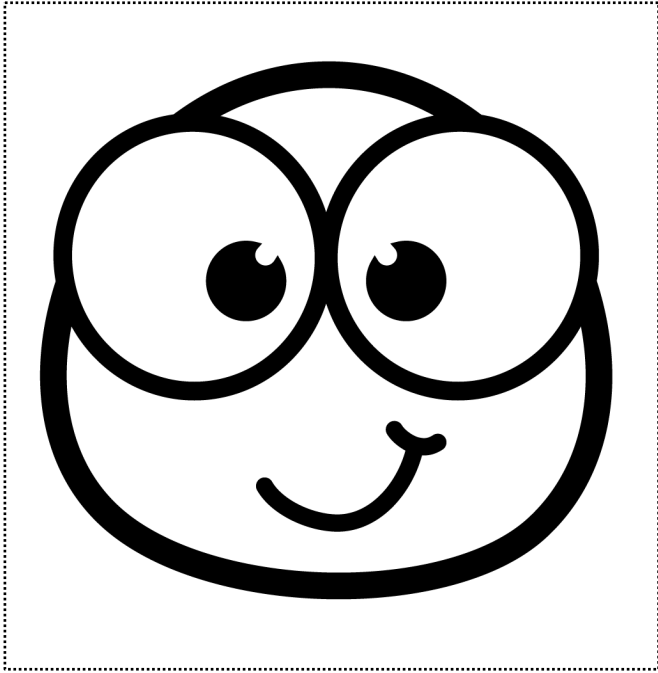

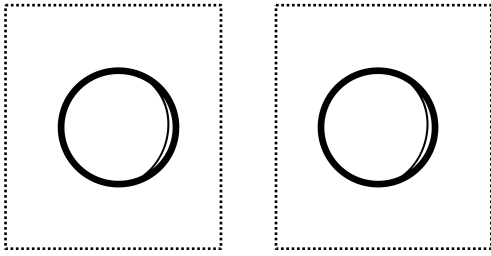

Directions: Color and cut out the parts of the bugs and paste them in the correct spots on the templates provided.

Thanks to all the clip artists that helped me make these resources for you! Check out their clip art on teachers pay teachers!

Thanks from downloading from Abcdeelearning!

Deena

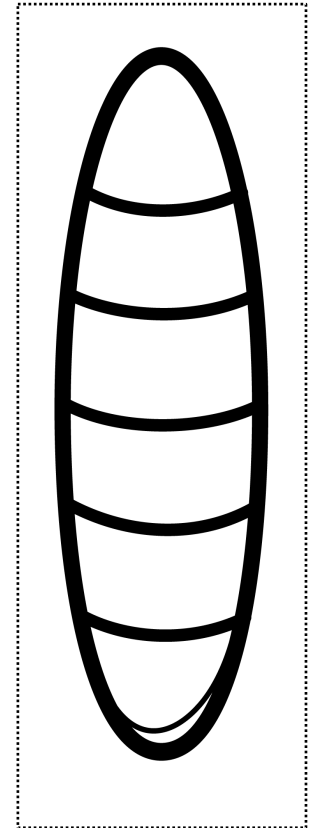

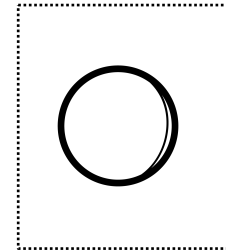

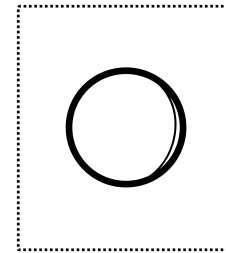

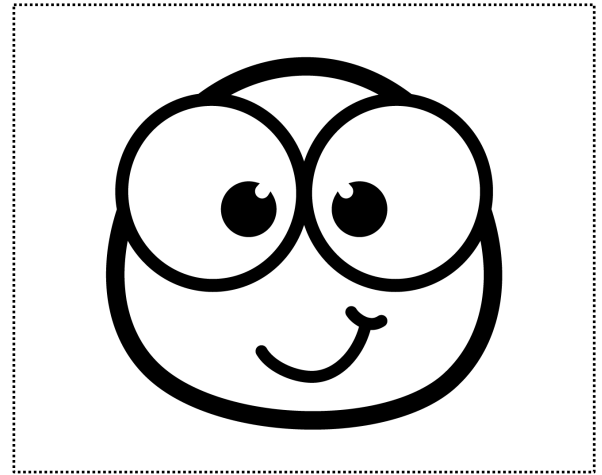

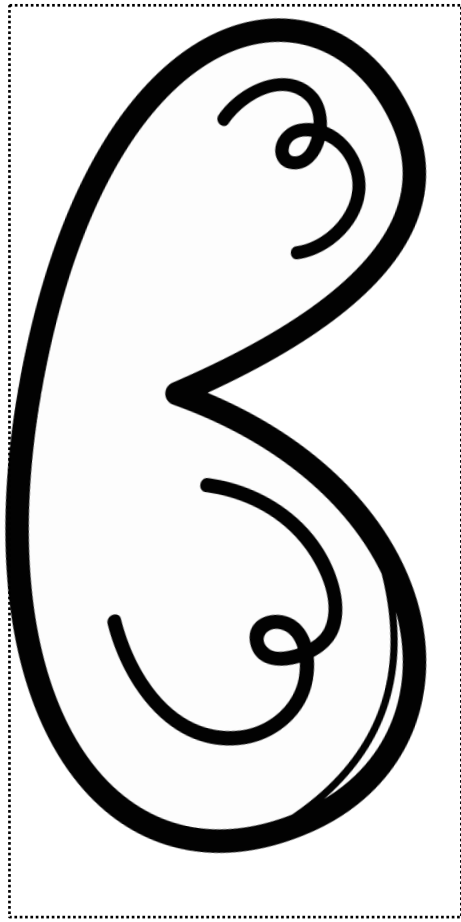

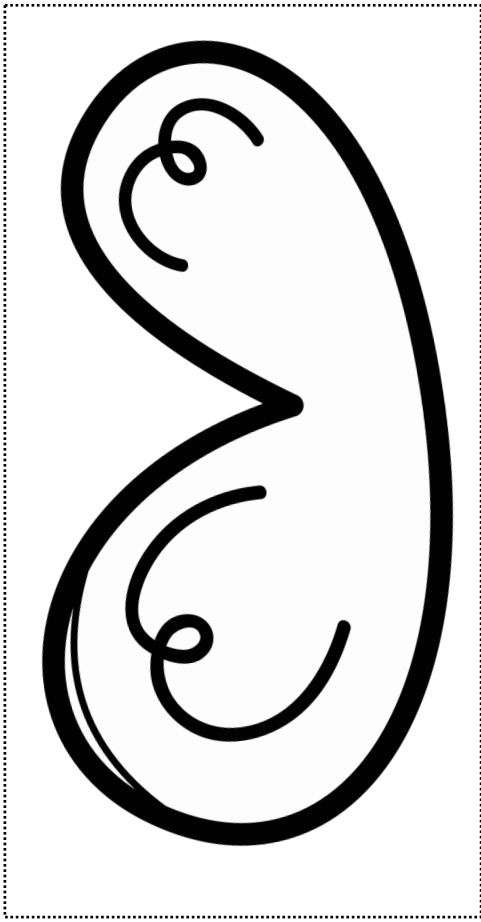

Build a bug parts

Directions: Color & cut out the parts of the bug and paste them on the ladybug template in place! Add a line on each to connect the antenna to the head of the bug.

A decorative border consisting of a green wavy line with small ladybugs attached to it. The ladybugs are orange with black spots and black antennae. The border frames the central text.
